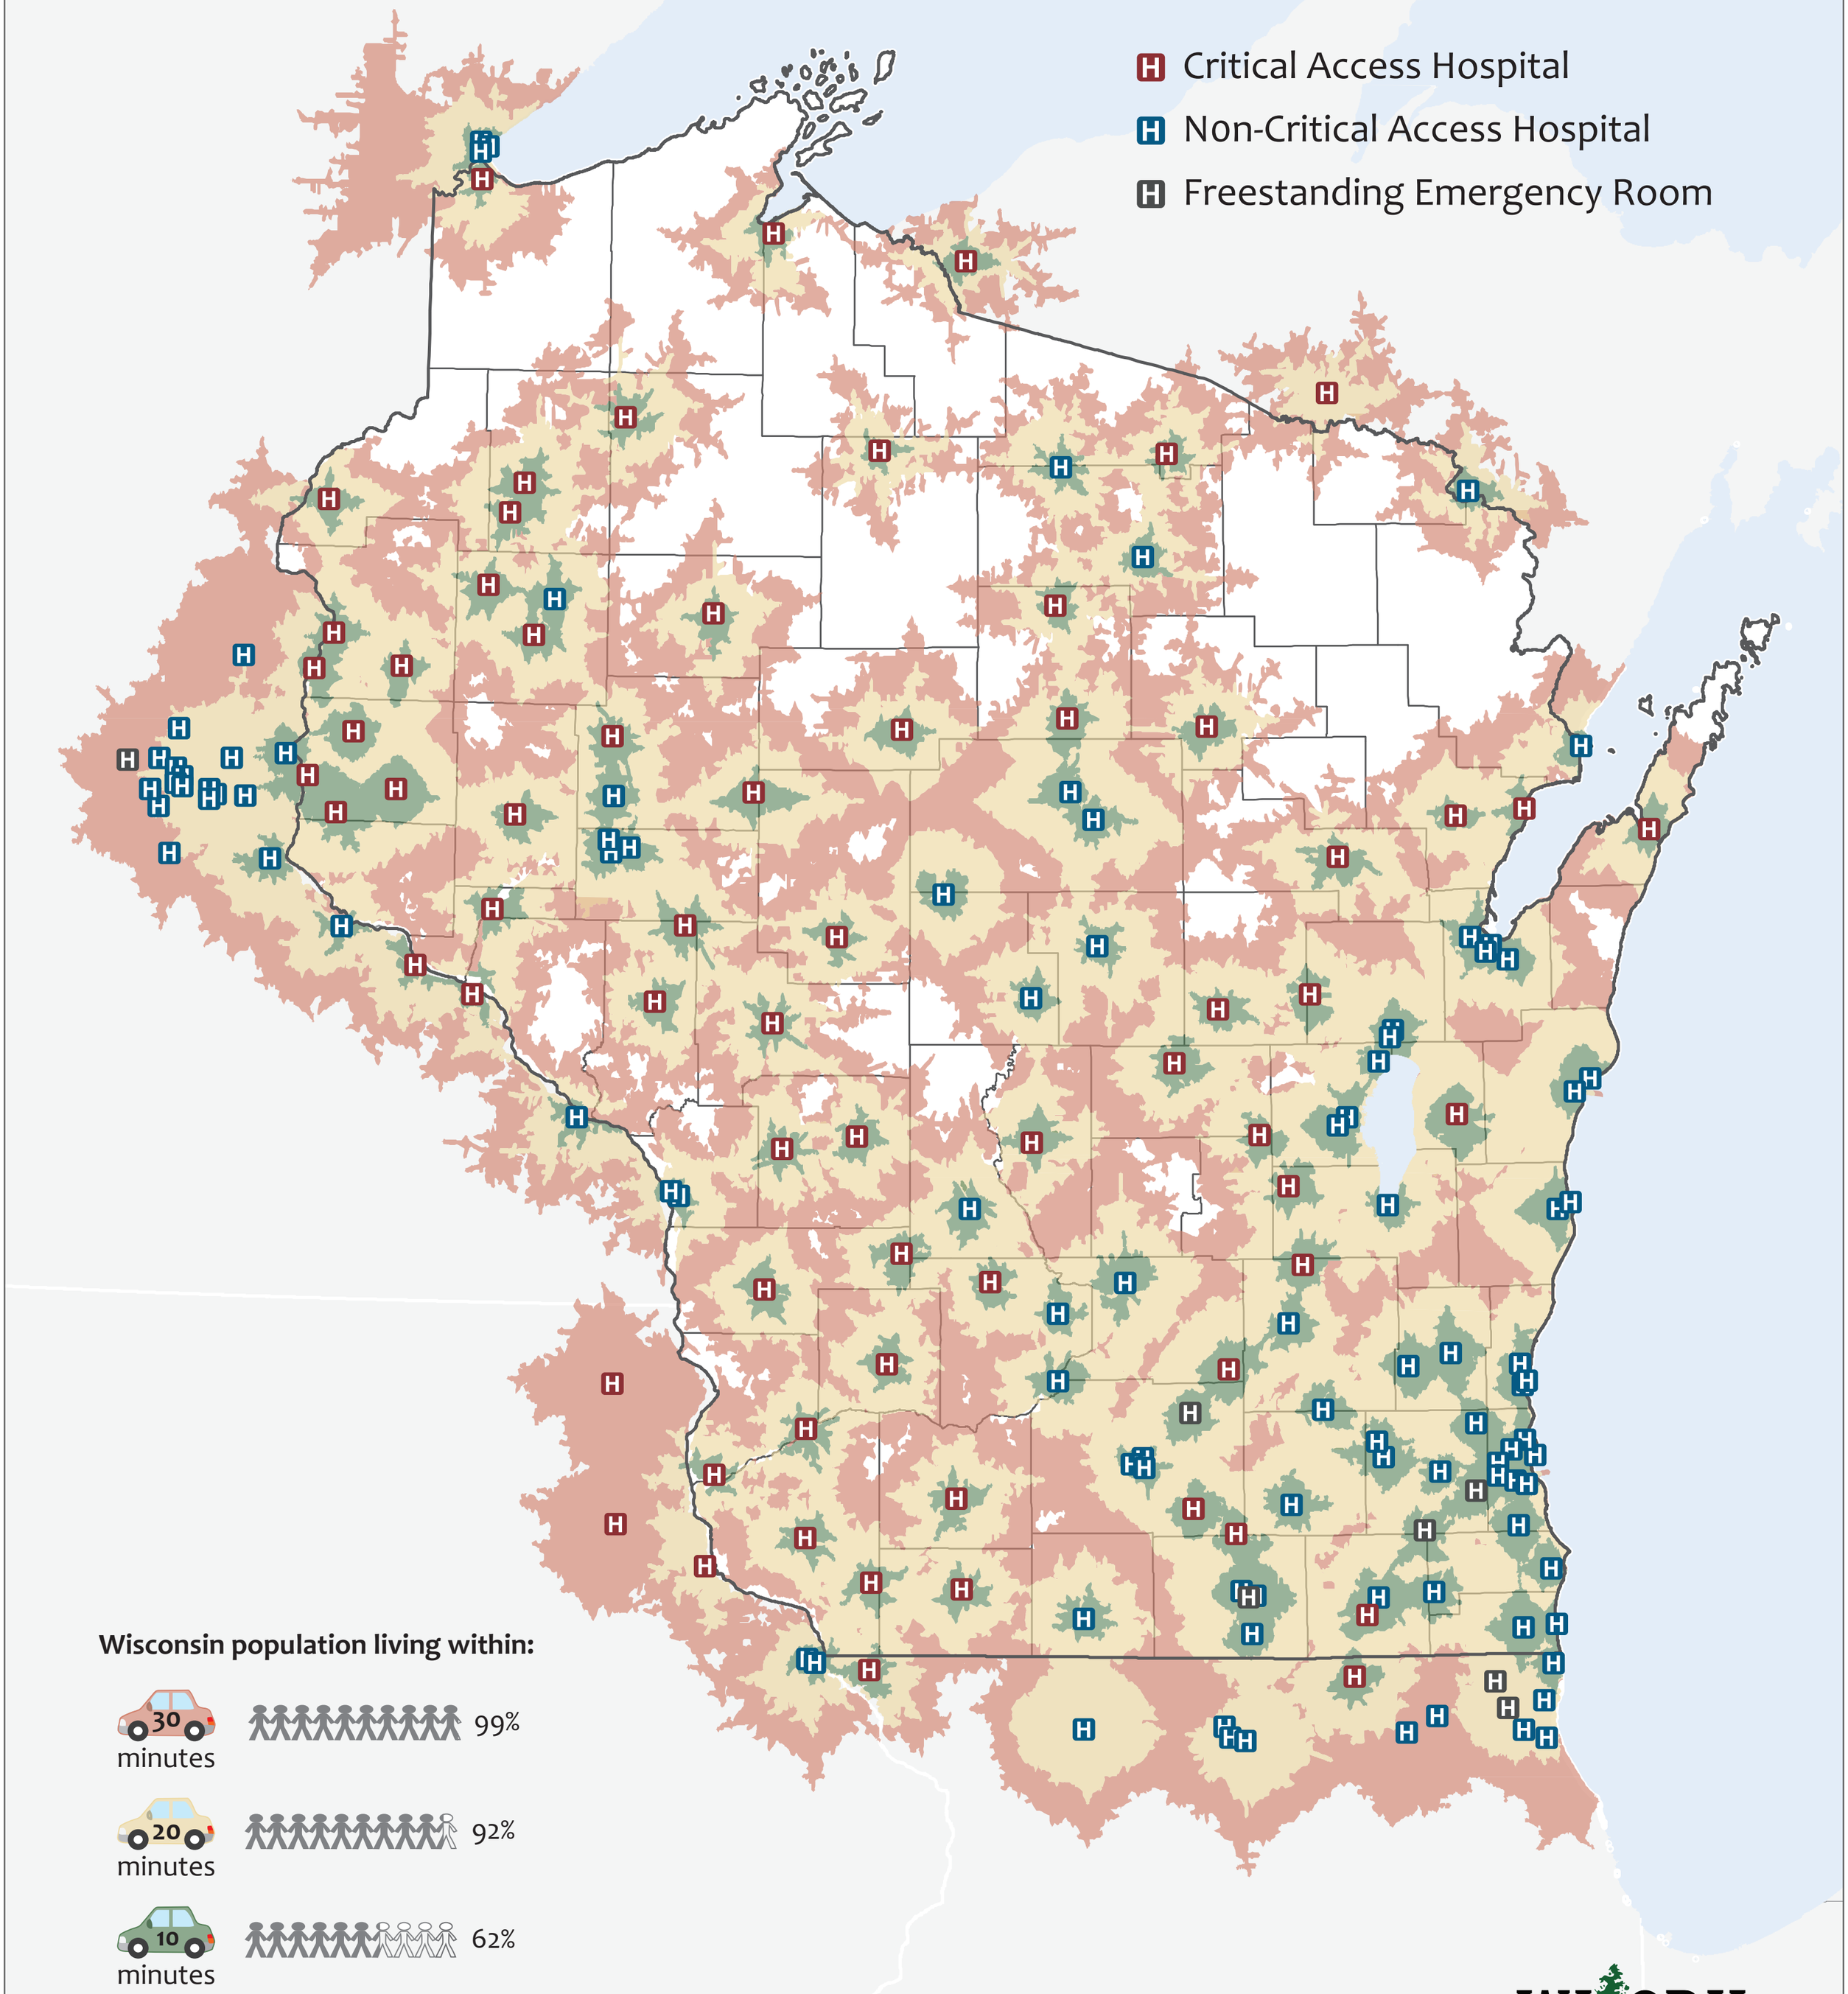
Drive Time to Emergency Care



Wisconsin population living within:

30 minutes — 99%

20 minutes — 92%

10 minutes — 62%

Drive-time analysis was conducted using ArcGIS Business Analyst, Navteq 2014 Quarter 3 routing data, and methodology recommended by the State Cargographer's Office. Emergency care location data sources: Wisconsin Department of Health Services, HRSA Data Warehouse, and State Offices of Rural Health in Minnesota, Iowa, Michigan, and Illinois.
Population data source: Wisconsin Legislative Technology Services Bureau. Map by Casey Kalman and Penny Black. September 2017
