1000 Imperial Avenue  
Rothschild, WI

Registration Deadlines for Levels I & II: April 21, 2017

Registration Deadlines for Levels III & IV: May 25, 2017

#### **Level I** *Moving from Management to Leadership of the EMS Organization*

Beginning with the everyday challenges facing EMS organizations today, this first level inverts the way we often think about running an EMS organization and shows participants how to manage with leadership in mind. We discuss EMS organizational priorities, recruiting and keeping good people and managing performance - all from the perspective of leadership.

#### **Level II** *Showing Up as a Leader*

Beginning with each participant's personal leadership challenges, this second level moves beyond management to the art and practice of leading. Leaders see destinations and inspire people to move toward those destinations. This level prepares the leader to reflect on the basics of leadership and the basic leadership tools of listening, imagining and story telling.

#### **Course Instructors**

Aarron Reinert & John Becknell, SafeTech Solutions

#### **The EMS Leadership Academy**

The EMS Leadership Academy is a dynamic, four-level, 60-hour educational program designed to prepare you to lead and manage today's EMS organization. It is designed to give you the basic tools and information needed to quickly and successfully assume the role of a leader. Since 2009, more than 900 leaders across the nation have participated in the Academy. Each level is a 15-hour, two-day program presented on consecutive days in comfortable settings that invite participation and openness. Class size is limited and the sessions are engaging, lively and participatory. Registration fee for each level is \$60 and includes meals on both days.

**Level III** *Moving Your Organization Toward What Matters* Building upon previous levels, this level tackles moving the EMS organization forward, making change and ensuring the organization avoids trouble and continues to be a place good people want to work. We will help you clarify where your organization needs to go next and how to get there.

**Level IV** *Your Specific Role and Challenges: A Retreat* At this level, the senior participants in the EMS Leadership Academy set the agenda in a facilitated retreat style session that focuses on applying what has been learned to actual cases. Specifically the session focuses on each participant's leadership roles and challenges. Utilizing an "open space" format, participants chose the topics. Brief presentations are made on the topics and the balance of the allotted time is used to workshop each topic with discussion, exercises and the sharing of best (and worst) practices.
